The conductor on Main Street car No. 513, one of the new ones, told a reporter last night of his experience with a drunken passenger, who threatened him. The passenger, a white man, and evidently drunk, boarded the car in Fulton and at first refused to pay his fare. Upon the insistence of the conductor, however, he paid, but after doing so exhibited a revolver and informed the conductor that if he was not put off on the east side of Seventh Street he would shoot him. The conductor was unarmed, but quietly proceeded to the front and insked the motorman to look out for an officer, and when he saw one to stop the car. An officer was not encountered, and when the car reached Seventeenth Street, the man with the gin alighted and disappeared. The conductor did not know the man, but would recognize him if he saw him again.

Senate Committee's Report Will

Probably Favor Contestee.

The Senate Committee on Privileges and Elections had a long sitting yesterday, listening to argument in the contested election case of Keen vs. Turner, from the Senatorial District consisting of the counties of Franklin and Floyd. After the argument had been concluded, the committee rose without action, and will take up the case and formulate a report in a few days. It seems altogether probable that the report will be in favor of the sitting member, Mr. S. T. Turner, of Floyd, a Republican. The trend of the questions asked by members of the committee yesterday of counsel for the contestee clearly indicated that they were not impressed with the strength of Dr. Keen's case.

Mr. L. R. Anderson opened the argument in favor of Dr. Keen, the contestant. He reviewed the claims relied on by his client, charging that a judge of election has been chosen irregularly, and that an opportunity for frauduent recording and counting had been afforded. From the statement of the case and the questions of the committee it seems to have been merely a possibility of fraud.

Mr. Malcolm' A. Coles, of this city, counsel for the contestee, made a clear and forceful presentation of the claims of his principal and of his right to the seat, for which he had been awarded the certificate.

Mr. Jordan, the patron of the bill, declares that it rests upon the same constitutional questions as the act which provided for the Baylor survey, and that if the former will not stand the test of the courts, the latter will likewise fail.

The bill will be reported to the House to-day.

NEW YORK, Feb. 5,—A syndicate of New York bankers has agreed to lend \$50,000,000 for the purpose of improving the Pennsylvania lines west of Pittsburg, and, also, it can be stated on the authority of a member of the lending syndicate, to provide funds for the purchase of the Western Maryland Railroad by the Norfolk and Western as a part of a plan for the settlement of the Gould-Pennsylvania differences. According to the latest report the Western Maryland, which runs from Baltimore to Williamsport, Md., and leases a number of smaller lines, has outstanding about \$16,700,000 of common stock and \$323,000 of preferred stock.

While the syndicate member said that the loan would provide funds for the purchase of the Western Maryland, it could not be learned that negotiations for such a purchase had been closed.

Vall Street regarded the statement that one of the purposes of the loan was the purchase of the Western Maryland as very important. The differences between the Gopid-Pennsylvania interests have engaged the attention of financiers for months, and while reports that an adjustment was under way have been made repeatedly within the last few weeks, official confirmation is lacking. One of the rumors in circulation to-day was that the Pennsylvania, after taking over the Western Maryland, would give the Gould lines a favorable arrangement for Scaboard traffic.

The Pennsylvania will receive the money April latt, and issues notes bearing 41-2 per cent, interest therefor, the notes to be taken up in eighteen months. It is not incommon the office of the price to be paid for the notes was not made pumic.
